

February 22, 2022

Dear Villagers, Team Members, Family Members and Friends,

I am writing to inform you that 1 team member has tested positive for COVID-19 this week. All other test results that we have received, so far, from 2/21/22 testing have come back negative. We wish our team member well during their isolation period and look forward to their return. Due to this positive, we have multiple villagers on Heritage One Depot and Heritage One Manor who are on quarantine until 3/3/2022. We will continue with outbreak testing, per CMS guidelines. You will be notified if there are any new identified cases in team members or villagers.

We are happy to announce that we will be hosting a Moderna booster clinic on Monday, February 28th. Morton Pharmacy will be coming in to administer the Moderna booster to any villagers and team members who are interested and eligible.

Due to the County network update on Sunday, Feb. 27th, the Brewster Village network will be down all day. If we receive any positive results over the weekend we will notify you on Monday.

Visits will continue to occur within a villager's room or designated visitation room, if needed, to promote social distancing. Visits are not to take place in the café, sunrooms, living rooms, etc. Visitors are still screened and are asked to attest to their health prior to visiting.

CMS strongly encourages all visitors and family members to become vaccinated or receive your booster to help prevent the spread of COVID-19. COVID-19 vaccines are available for everyone at no cost.

Thank you for your support in these efforts and your patience and understanding as we work together to promote the health and well-being of our villagers, team members, families and friends.

Sincerely,

Amber L Hankwitz, Nursing Coordinator Infection Preventionist
