

April 30, 2022

Dear Villagers, Team Members, Family Members and Friends,

I am writing to inform you that 2 team members have tested positive for COVID-19 this week during Thursday and Friday testing. We wish our team member well during their isolation period and look forward to their return. Due to this positive, all villagers on Atrium Two who are not up to date with their COVID-19 vaccine will be on precautions until 5/6/22. They will also be COVID tested two times until that date. We will continue with testing team members and villagers per CDC guidelines. As always, you will be notified if there are any new identified cases in team members or villagers.

The safety and wellbeing of our villagers is our top priority. Brewster Village is staying in close communication with local officials to ensure we are taking the appropriate steps under current circumstances. We are also following guidance from the CDC and CMS to reduce the spread and impact of COVID-19, such as:

- Screening villagers, team members and visitors for symptoms
- Testing team members and villagers for COVID-19 based on current protocols and community transmission rates
- Mandatory face masks for all team members and visitors
- Visits occurring within a villager's room or designated visitation room
- Proper hand hygiene
- Encouraging physical distancing

Thank you for your support in these efforts, your patience and understanding as we work together to promote the health and well-being of our villagers, team members, families and friends.

Kind Regards,

*Amber L Hankwitz, Nursing Coordinator Infection Preventionist*
