

August 24, 2022

Dear Villagers, Team Members, Family Members and Friends,

I am writing to inform you that we have had **3** team member that tested positive for Covid-19 through the 8/22-8/23 testing. We have had to place the villagers on H1 Depot and Mills into quarantine as we test them due to exposure. The villagers were tested yesterday, 8/23, and have all returned Negative. We will test the villagers again on Friday, 8/26, and if they also come back Negative, we will have them come out of quarantine.

We wish a speedy recovery for our team member affected by Covid -19. Public Health has been updated and they are supportive of the actions taken.

The safety and wellbeing of our villagers is our top priority. We will continue to be in communication with Public Health to ensure that steps are taken in an appropriate manner. We continue to follow CDC and CMS guidelines to help reduce the spread and impact of the Covid – 19 variants. Our current practices are:

- Screening villagers, team members and visitors for symptoms
- Testing team members and villagers for Covid-19 based on current protocols and community transmission rates
- Mandatory face masks for all team members and visitors
- Visits with villagers to be in their room or designated visitation room. (Café area is not an appropriate place to visit)
- Proper hand hygiene
- Encouraging continued physical distancing

Thank you for your support in these efforts and your patience and understanding as we work together to promote the health and well-being of our villagers, team members, families and friends.

Best regards,

Cathy Knifke RN WCC Nursing Director
