

OUTAGAMIE COUNTY

SHORT-TERM REHABILITATION  
AND LONG-TERM CARE COMMUNITY

February 6, 2023

Dear Villagers, Team members, Family members and Friends;

A discrepancy was noted in the posted and distributed February 5, 2023 COVID letter. The letter read, "However, we are continuing broad based testing weekly of all staff until we are positive free for 14 days".

We have decided that we will not be instituting broad based testing at this time. We are not required to complete broad based testing per CDC guidelines with outbreak status. We will be following the contact trace testing as the CDC recommends, with the understanding that decisions about testing may evolve rapidly. Please recognize the diligence put forth to review all influencing factors and know that we put the health of our Villagers and Team members in the forefront.

My apology to you all for this discrepancy,

*Jennifer Hoelzel Bouhram RN, WCC*
